

The Year of Continuing Education (YoCE) is the second phase of an AFMC initiative to encourage participation in academic programs leading to degree completion. The goal of Phase I, the Year of the Community College of the Air Force (YoCCAF), was to encourage Enlisted Airmen on AFMC bases to complete a CCAF degree. It was very successful, resulting in the highest number of CCAF degrees ever earned in AFMC. The goal of YoCE is to continue the emphasis on earning the CCAF, and encourage the completion of advanced degrees or professional certification for all AFMC Airmen.

This brochure was developed to inform officers of the educational opportunities available to them. It highlights the programs for professional and personal development. Please read through it. We are confident you will find a program to meet your needs.
